# Kadinsky...

He expressed feelings and music through colours and **shapes** in his paintings.

What shapes can you spot?

He was most interested in circles, triangles, and squares. He thought the triangle would cause aggressive feelings, the square calm feelings, and the circle spiritual feelings.

# Your turn...

Fill a piece of card with 2D shapes.

Make sure in some places they overlap!

# Your turn...

Add lots of  
colour!

Try not to have  
the same colour  
right next door!
