

Concept: Statistics

Skill: I can interpret and present data using bar charts, tables and pictograms.

SMALL STEP: Bar Charts (PS)

PS

Can you think of two more possibilities and draw the bar charts to show them?

Concept: Statistics

SMALL STEP: Bar Charts (PS)

2. A class collects data about bugs.

Slug	
Worm	
Ladybird	
Butterfly	

 = 2 bugs

We saw 6 fewer slugs than worms.

We saw 12 more worms than ladybirds.

Draw a bar chart to display this information. Choose a suitable scale.

PS

Draw your bar chart below, but take care as you may need to do something else first...
