

Skill: I know that the life processes common to humans and other animals include nutrition, movement, growth and reproduction.

MRS GREN/MRS NERG

There are seven ways in which living things, such as plants and animals, are different to non-living things.

Write the correct description for each characteristic and give an example of that characteristic for both a plant and an animal.

Characteristic	Description	An Animal Example	A Plant Example
Movement			
Respiration			
Sensitivity			
Nutrition			
Excretion			
Reproduction			
Growth			

Descriptions:

- Remove wastes made in body
- To change positions
- To obtain and break food into smaller pieces
- To increase in size

- To detect changes in the surroundings
- To create new organisms
- Produce energy from food
