

# Reasoning

Jack is trying to represent his subtraction calculations on part whole models. Is he correct?

$$13 - 6 = 7$$

$$17 - 9 = 8$$

Skill: I can subtract within 20.

## Subtraction from 20

$$9 - 2 =$$

## Subtraction from 20

$$19 - 3 =$$

# Subtraction from 20

$$20 - 5 =$$

# Subtraction from 20

$$15 - 4 =$$

# Independent activity.

Using the number cards, how many different subtraction calculations can you create?

Digging deeper.

I know that I have all the answers because...

# Reasoning

Gina

I counted my marbles and I have 5 more than 20.

I counted my marbles and I have 30.

Rob

Who has the most marbles?  
Explain how you know.
