

# Paper Cup Challenge

## STEM Activity

### The Activity

In your group, can you create the tallest tower using only the cups?

### Instructions

1. Get into groups within your class.
2. Get twenty paper cups per group.
3. Discuss as a group how you will make your tower the tallest.
4. Build the tallest tower you can, in five minutes.
5. Measure your tower. How many cups tall is it?
6. Compare your tower with others in the class.
7. Whose tower was the most successful and why?

### You will need:

Paper Cups

### Ways to Extend

Complete the activity without touching the cups with your hands. You could use chop sticks or tweezers.

Or use a blindfold whilst you are building.
