

Concept: Statistics

Skill: I can interpret and present data using bar charts, tables and pictograms.

SMALL STEP: Tables (R) - PURPLE

1. Billy creates some questions using the table below.

	Aeroplane	Ferry	Car	Train
North of England	19		28	30
South of England	20	45		54
Total		57	80	

- A. How many people use aeroplanes to go on holiday?
- B. Do more or less people travel by car in the south?
- C. How many people use more than one type of transport?
- D. How many more people from the south voted?

Which of Billy's questions cannot be answered using the table? Explain why not.

Working out/Answer

2. Kamil creates some questions using the table below.

	Ladi	Desco	Foodgiant	Dasa
England		48	30	9
Wales	13	52		18
Total	37		44	27

- A. Which supermarket offers better value for money?
- B. Which supermarket is used the most overall?
- C. In which country are Ladi and Dasa visited more altogether?
- D. How many fewer people shop at Foodgiant in Wales than in England?

Which of Kamil's questions cannot be answered using the table? Explain why not.
